NORTH JERSEY RAMAPO CHAPTER NEWSLETTER & HIKE SCHEDULE

## A Message From the Chair

Volunteers are the most important part of our chapter. All of the work needed to keep the chapter functioning is done by volunteers working quietly behind the scenes. The newsletter is no exception. Volunteers edit, proofread, and mail the newsletter. When the Ramapo and North Jersey chapters merged in 2009, we decided to make some changes. We kept many features of the two existing newsletters, but we changed the format completely. Judi, our new editor, had recently joined the ADK and had asked Suzan if we needed any help with the newsletter. Suzan accepted (quickly!), so Judi designed our new logo and the layout that provides the new look. Every three months she takes contributions from our members (hike schedule, articles, photographs, drawings, etc.), and uses her knowledge, experience, and skill in graphic design to turn them into an attractive and professional-looking publication. The result has been impressive and I and the other officers and board members of the chapter are very proud of our newsletter. Thank you Judi.

Have I mentioned that Judi is an accomplished artist in addition to being a professional graphic designer? If you would like to see some of her work, she is having a show of photographs at the Suffern Library during the month of November. She also teaches art. This December she is teaching a course titled "You Can Draw", also at the Suffern Library. Contact the library for details and hours. ([www.suffernfreelibrary.org](http://www.suffernfreelibrary.org); 210 Lafayette Ave., Suffern, NY 10901; 845-357-1237)

One last thing. Some members have suggested that we send the newsletter by e-mail instead of by post. Personally I like to have a paper copy, so I would probably print it out. It wouldn't be as nice or as convenient (the hike schedule is an easy pullout) as it is now, and it seems less efficient to me. What do you think? I'd like to hear from you.

## Black Bear Bears In Harriman?

by Betty Heald

In all my 40+ years of hiking in Harriman, I'd never heard of a bear encounter, nor seen any evidence of their scat in the Park. In August 35 years ago near Bear Lake in Ramapo Reservation, a friend and I came upon a mama and her two cubs in Ramapo Reservation. They were quite a distance away so we did not feel threatened. On a spring AMC trip in Glacier National Park some years ago signs of bear scat and of their digging for roots were frequently found. I was alone but not threatened when I saw a grizzly ambling along the far side of a ravine. On that same trip I met a young woman employee hiking with a companion. Periodically, she gave out a piercing yodel-like yell. I asked her why she did that and she explained that the yell was more effective warning bears away than the common, little jingling bear-bells people wore on their packs. Since then, anyone and everyone hiking with me has had to endure hearing me periodically practice that yell in case a bear was nearby. What would you do if an adult bear suddenly appeared in front of you? Recently a friend and I had to deal with this situation.

On a Thursday in early June, Barbara Goldberg and I were hiking back to our car at Tiorati Road along the Beech Trail. We had been disappointed that the mountain laurel was not yet at its peak. Soon after crossing Hasenclever Road Barbara, who was behind me, suddenly said, "There's a bear up ahead." I lifted my eyes from the trail and saw, at about 150 feet, a large black bear ambling

toward us along the trail. Instinctively, I began the loud yelling, barking noise I'd been practicing lo' these many years. The bear stopped, reared up on its hind legs and looked our way (I don't think it could see us very well). I continued my yelling, uninterrupted. Barbara soon joined me. (She was a fast learner.)

The bear stood for a time. It seemed very long to me, but was probably only 20 seconds or so, before it dropped down on all fours and ambled off into the woods to the north. We knew that bear cubs might be following along, so we stood quietly, waiting. In a minute or so another large black bear came around the bend in the trail toward us. We commenced our loud yelling again. This fellow behaved just as his buddy had and, standing up to peer toward us for a few seconds, dropped to the ground and ambled off in the same direction as the first bear. I expect they were yearlings weighing about 350 pounds each.

We stood some time waiting to see if any more bears would appear. When none did, we trotted on down that trail as quickly as we could, back to the parked car and our drive home. It wasn't until the next day that I realized the possible danger that we had faced. After many years of exposure to articles and video presentations on what to do when a bear is encountered, my reactions had been instinctive. It is reassuring to know that the yell really works.

## HIKER'S GUIDE

**RESPONSIBILITIES** - Hikers with children under 16 and new hikers are required to contact the hike leader in advance to determine if the hike is suitable for them. Minors under 16 are welcome on day hikes when accompanied by a parent or guardian. No person under 18 shall participate in overnight outings unless accompanied by a parent or adult sponsor over 21. The hike leader may refuse to allow a person to hike who is judged to be poorly equipped or unable to do the published hike. Pets are not permitted on hikes unless the hike description clearly states that it is "dog friendly". Non-members are welcome on two hikes after which ADK membership is required. Participants should get to the hike at least 10 minutes prior to the starting time.

**RISKS** - As with all physical activities, hiking involves hazards. Persons participate at their own risk and will be asked to sign a statement acknowledging that fact before starting the hike. Prior to the hike please advise the leader of any medical condition or physical liability that could affect you during the hike.

**FOOTWEAR AND CLOTHING** - Wear clothing suited to the weather and carry extra garments for unexpected weather conditions. Dress in thin layers so that you can adjust the number of layers as required to maintain comfort. In winter carry a wool cap and wool or polypropylene gloves or mitts and a windproof shell. Be prepared for rain. Bring a rain jacket and rain pants, preferably of the type that permits venting body moisture. Wear comfortable, sturdy boots. Do not wear cotton garments in winter.

**DRINK AND FOOD** - Adequate hydration is important year round. Drink frequently during the hike. Carry food to enjoy during the midday lunch stop.

**DOG-FRIENDLY HIKES** - All hikers with dogs must abide by park leash regulations.

**HIKE RATINGS** - represent the Pace, Distance and Terrain covered during the hike. A hike's rating is determined by the hike leader.

**PACE:** A - fast - 2.5 mph or faster  
B - moderate - about 2 mph  
C - easy - 1.5 mph or less

**DISTANCE:** is given in miles as noted

**TERRAIN:** A - Strenuous, long ups and downs, some rock scrambling possible.  
B - Moderate ups and downs as occur typically in Harriman.  
C - Generally flat with little elevation change.

**MAPS** - The TC number indicates a NY-NJ Trail Conference map for the area of the hike. For example: TC-118 refers to the Southern Harriman Park map.

**ABBREVIATIONS** - NCA-No Calls After . . . , Pref.- Leader's contact preference.

**EXPENSE SHARING** - When car-pooling, passengers are expected to offer the driver funds sufficient to cover the cost of fuel, tolls and parking fees. A \$3.00 minimum per person is recommended. Most hike trailhead meeting locations can be found on NY-NJ Trail Conference maps.

**HIKE CANCELLATION POLICY** - Sometimes an illness, injury or other unforeseen problem will make it impossible for a hike leader to lead his/her hike as announced in the schedule. When this happens the leader should first try to find a substitute leader so the hike can proceed as scheduled. The hike schedule chair person or any club officer can assist if necessary. If no substitute leader can be found then the leader or a substitute should appear at the hike meeting place to inform hikers of the situation. If a qualified leader volunteers, he/she should be given the sign-in sheet and the hike can proceed as scheduled. If the hike is one that requires preregistration, the leader must inform all who registered of the change by phone or e-mail.

## HIKE SCHEDULE • FALL 2011 • OCTOBER • NOVEMBER • DECEMBER

October-December

A Day In The Catskills & Hudson Highland Area B 5.5-9 B  
Deanna Felicetta felicetta.deanna@gmail.com or 845-216-2021  
There is nothing like an entire day spent in the woods. Hikes will often be in the Catskills and other Hudson Highland locations. Difficulty will vary from hike to hike; however, we will be stopping to enjoy views and other beautiful places in the woods. The hikes this season will include such places as The Giant Ledges on Panther Mt., Hunter Mt. and Firetower, Balsam Mt., and a day at Bear Mt. with skating and hiking. The hikes will meet early, allowing us to have the entire day, and relax for a short break before the drive back home. Call between the 23rd and 1st of each month for location and details. Carpooling is welcome among hikers. **MUST REGISTER BY PHONE** before each hike. Your name and cell phone number are needed. Poor weather (thunderstorms, heavy snow or rain etc.) will cancel hike.

Saturday, 10/1 Adirondacks-Mt. Marcy (ascent 3200 ft) C+ 14.8 A+  
Elie Bijou adirondacks@verizon.net or 518-873-2119  
(NCA 9 PM; Fri. and Sat. 5 PM)  
A long hike on well-groomed trails to the State's highest peak. Please bring warm clothing, snacks, water, lunch and expect an early start.

Saturday, 10/1 Sterling Forest Fire Tower Ramble B 5 B+  
Jeffrey Sovelove Hiker\_Dood@yahoo.com  
We will do the Sterling Forest Fire Tower Ramble with the option to extend if the group desires. This is a moderately strenuous hike with a considerable amount of climbing. Bring water, lunch, and wear hiking boots. No sneakers. Meet at the Visitors' Center at 10 AM sharp. See the Sterling Forest web site for information and directions: <http://nysparks.state.ny.us/parks/74/details.aspx>. Steady/heavy rain cancels. Joint ADK/Sierra Club hike. TC map 100.

Sunday, 10/2 Teatown To Kitchawan Trail B 6 B  
Despina Metaxatos dmetaxatos@hotmail.com (pref.) or 201-952-4151  
Meet 10 AM at Westchester County's Teatown Lake Reservation Nature Center Parking Lot (Mapquest directions). Shuttle to Kitchawan Preserve Parking Lot to begin hike on TKT (Teatown Kitchawan Trail, distinctive purple blazes), meandering through old farm fields and woods, along a reservoir, and climbing to the summit of Bald Mountain with Croton Reservoir and Hudson River views. Enjoy the colors of Fall. Steady rain cancels. Contact leader if weather uncertain.

Tuesday, 10/4 Catamount Mt. (ascent 1572 ft) C+ 3.8 A-  
Elie Bijou adirondacks@verizon.net or 518-873-2119  
(NCA 9 PM; Fri & Sat. 5 PM)  
A relatively short hike through the woods and then a short chimney climb leads us to the open rock of this great summit. The view is spectacular, ranging from the northern Adirondacks to the High Peaks.

Wednesday, 10/5 Wallkill Valley Rail Trail C 2.5 C  
Louise Parnell 845-290-5287  
Meet at 10 AM at the Water Street Market parking lot in New Paltz. Take the New York State Thruway to Exit 18 on to 299 West

(Main St.). The Water Street Market comes before the bridge over the Wallkill River and is on the left. We will all drive to a free parking lot. Please call to register for this walk.

Thursday, 10/6 In the Woods B/C 5/7 B  
Richard Sumner RLS@RSUMNER.COM or 845-362-8470  
Harriman or nearby parks. Call or e-mail for details the week of the hike. Pace may be B or C depending on the group and the weather. Details will also be posted on Facebook and the Yahoo group.

Saturday, 10/8 Catskills - Sugarloaf and Plateau A 10 A  
George Preoteasa gvpreo@gmail.com or 201-694-8344  
E-mail or call leader for meeting time and directions by October 6. This trail hike is in the Catskill Mountains, approximately 100 miles north of northern NJ. The arduous ascent is rewarded with great views. Interesting artifacts along the way. If there is interest, may organize as a shuttle to save on walking distance. TC map 141.

Saturday, 10/8 State Line Lookout C 2.5 C  
Louise Parnell parnelljt@optonline.net or 845-290-5287  
Meet at 10 AM at the State Line Lookout Parking Lot. We will walk Old 9W used before the Palisades Parkway was built. Take the Palisades Parkway south to Exit 3 and make the legal U-turn onto the northbound Palisades. The sign for the State Line Lookout Exit comes quickly on the right. TC map 109.

### Trail Maintainer Needed

by Karen Rose

This is a great opportunity to get more involved with our chapter. After many years of service to the chapter, Rudy Garfinkel is retiring from his post as trail maintainer for ADK NJR. Thank you Rudy!

We need a volunteer to maintain the Long Path from Route 6 to the Menomine trail junction. This is about a 2-mile long relatively easy stretch of trail. The maintainer is responsible for patrolling the trail at least 2 times a year and submitting a report in the Spring and Fall. Duties include cutting back brush, checking trail blazes, clearing small blowdowns and reporting any job that would require chainsaw crews' attention. Please contact me at 201-962-8546 or kkarose@aol.com if you are interested.

## Responsibilities of a Hike Leader-10 Tips

by Peter Reiner

If you have thought about becoming a hike leader for our chapter, here are several tips to help you lead a successful hike:

1. Know the route. The leader should be familiar with the trail. It is best to have hiked the route a few days or weeks in advance of the trip so that the trail conditions are fresh in your mind. Locate the trailhead, assess trail conditions, establish a lunch stop, and locate car parks (at both ends if it is to be shuttle hike).
2. When prospective hikers call to ask about the hike, discuss the difficulty of the hike and try to assess the ability of the hiker to handle your hike.
3. Meet at the appointed time and place on the day of the hike. At the meeting place, have each hiker should write his name on the sign-in sheet.
4. The hike leader should assess the equipment and condition of each hiker, and if someone does not appear to measure up to the level of difficulty of the hike this is the time to have a heart-to-heart talk about their participation.
5. Brief hikers about the hike at the trailhead. Be sure you introduce yourself and ask the participants to introduce themselves to the group.
6. Appoint a sweep. The larger the group, the more important it is to station an experienced hiker at the end of the group.
7. Keep track of your hikers. On the trail, make periodic stops to ensure that all hikers are still with you. It is your responsibility to keep the group together and to find lost hikers. Count the number of trip participants at the start of the trip, periodically throughout the trip, and again at the end of the trip to insure that everyone is accounted for.
8. Be prepared for emergencies. Carry a first aid kit. You should be able to take care of minor cuts and scrapes, blisters, bee stings, and so on.
9. Offer guests (nonmembers) a chance to join the club. Carry some ADK brochures/application blanks in your pack.
10. After the hike, be sure to mail the hike sign-up sheet in the envelope provided to you beforehand. Be sure to write the date of the hike, your name and phone number, and the hike length in miles.

# Grand Canyon Rim To Rim And More

Pasquale Marcotullio

This is what a ranger told me 25 years ago, on a trip from Las Vegas: "You can see part of the Grand Canyon from either the north or south rim, but if you want to see and feel it, you have to go to the bottom and look up." There are 4 ways to get to the bottom of the Grand Canyon; the most popular option is to go down and up for a long day hike or stay for one night or longer at a campsite or at Phantom Ranch - rustic cabins and dorm type accommodations. The second option is a jarring ride on mule-back with an overnight stay at Phantom Ranch. The third is by raft on the Colorado River and the fourth is by helicopter, which is mostly used for rescue operations. My friend and fellow hiker Mark and I opted to join with Road Scholar (formerly Elderhostel) for a 4-night, 5-day rim to rim hiking trip.

On the first day, May 13, our group of 5 women and 5 men including the leader and co-leader, hiked 4 ½ miles down the Bright Angel trail to the Indian Garden campground with a side trip of 3 miles to Plateau Point, a lookout 1500 ft from the bottom of the canyon where we saw the Colorado river for the first time. Next day, May 14, we crossed the river on the Silver Bridge and reached Bright Angel campground in the early afternoon. After setting camp, I hiked upriver for about 1 ½ miles past the Indian Archeological Excavations, a riverbank site where Havasupai Indians lived and farmed, crossed the river again on the Black Bridge (the south side of the bridge ends in a tunnel), hiked the spectacular river rim of the Kaibab trail and back across the Silver Bridge to the campground.

On May 15 we began our ascent to the north side of the canyon on the Kaibab trail. After hiking 7 ½ miles with a steady climb of 1600 ft, we reached Cottonwood campground in early afternoon. The next day was supposed to be a rest day but we chose to explore upper and lower Ribbon Falls and surrounding area. With temperatures well above 90 degrees, the cool spray of the falls was a welcome relief. Temperatures at the bottom of the canyon can easily reach 115 degrees in summer. In winter it is not uncommon to have 12 ft of snow on the north rim and none on the bottom with a temperature difference of more than 30 degrees.

Road Scholar brochure accurately describes the final climb to the north rim as follows: "After breakfast and early camp break, begin the final climb to the north rim. This is the big climb which will become one of your favorite war stories in the retelling. We will hike up about 4200 vertical feet in about 7 miles through some of the most spectacular scenery the Grand Canyon has to offer". About half way up, there is Roaring Springs, a large stream that comes out of the side of the mountain and comes roaring down for approximately ½ mile to Bright Angel creek and ultimately into the Colorado River. You can hear the water before you see it, and directly across the trail. It is a sight not easily forgotten. We reached the rim about 11 AM. The rest of the group arrived around 12:45 PM, all of us safe, tired and happy.

The Grand Canyon started as a marine environment some 1,200 million years ago depositing 13,000 feet of sediment and lava. After millions of years of lifting, tilting and erosion we now have

some of the most spectacular geology the world has to offer. I feel extremely fortunate to have hiked the Grand Canyon and savored this miracle of nature so closely. I also feel fortunate to live in an area that offers many possibilities for easy and challenging hikes. It offers me and others in the community the opportunity to "feel" our mountains. I love having lunch at Wyanokie High Point, directly across the Wanaque Reservoir with the Ramapo mountains and the NY City skyline as a background. It takes an effort to get to the top, but I assure you, that energy bar tastes better up there.
