A Message From the Chair

As I write this, it is only 19° outside and there are 6 inches of new snow on the ground. But spring is almost here! That’s what the calendar says anyway. The vernal equinox occurs on March 20, 2011 at 7:21 PM EDT. That’s when the apparent orbit of the sun crosses the ecliptic and the day and the night are exactly 12 hours each. The days will be getting longer and the sun will be higher in the sky. And the snow will melt. We’ve had a lot of snow this winter and that means lots of water in the streams, difficult water crossings, and generally soggy trail conditions when spring actually appears.

For me at least, the first real sign of spring is when I’m at a viewpoint overlooking the hills and mountains of Harriman and instead of just shades of black, brown and gray I see just the faintest tinge of green everywhere. After that things change rapidly and it isn’t long before trees are fully covered with leaves and the ground is green and sprinkled with little flowers. I’m looking forward to this. Hiking in the winter is fun and the snow allowed a lot of snowshoeing, but I’m ready for warm weather.

If you haven’t been hiking lately perhaps the spring schedule will entice you. It’s a diverse collection of hikes and outings ranging from a boat ride on the Hudson to hiking up a 4000 footer in the Adirondacks. In between there are lots of interesting hikes and outings in nearby parks. Read the article in this issue, “Much ado about everything” for details of some of the more unusual activities.

The spring schedule includes several C-rated hikes. These C hikes are are usually fairly short and on easy trails without steep climbs or rock scrambling. If you’re new to hiking or perhaps just a little out of shape, a C hike may be just right. So take a look at the schedule, choose a C hike, call the leader to be sure it’s suitable for you, and come out on a hike. We’re looking forward to meeting you.

Rockland Winter Tragedy

by Chris Connolly

Many of you have heard of the February tragedy that befell Colleen Murphy, a Harriman trail maintainer who perished with her dog in a fall over a 300-foot cliff while snowshoeing alone in Rockland Lake State Park. Our hearts go out to her and her family and friends. While we may never know the precise circumstances behind Colleen’s death, there are some hard-won winter hiking lessons that bear repeating:

1. GO WITH A GROUP, DON’T HIKE ALONE - There simply is greater safety in numbers. Also, ADK hike leaders change their planned hike routes by choosing safer trails to take account of wintry snow and ice conditions.

2. STAY AWAY FROM THE STEEP AND THE SHEER - The area where Colleen died is famous for its spectacular but sheer 300-foot cliffline, which overlooks the Hudson 200 feet away from the Long Path route. Going off-trail affords panoramic views, but it can be quite dangerous in icy or wet weather whether or not one is wearing foot traction aids. ADK hike leaders avoid such areas in bad weather conditions, and change or cancel hikes as necessary. For example, NJR hike leader Dave Sutter cancelled a hike this winter in the steep Dunderberg Mountain area because of icy conditions.

3. LEASH YOUR PET - This is not only the law, but is prudent in wintry weather.

HIKER’S GUIDE

RESPONSIBILITIES - Hikers with children under 16 and new hikers are required to contact the hike leader in advance to determine if the hike is suitable for them. Minors under 16 are welcome on day hikes when accompanied by a parent or guardian. No person under 18 shall participate in overnight outings unless accompanied by a parent or adult sponsor over 21. The hike leader may refuse to allow a person to hike who is judged to be poorly equipped or unable to do the published hike. Pets are not permitted on hikes unless the hike description clearly states that it is ‘dog friendly’. Non- members are welcome on two hikes after which ADK membership is required. Participants should get to the hike at least 10 minutes prior to the starting time.

RISKS - As with all physical activities, hiking involves hazards. Persons participate at their own risk and will be asked to sign a statement acknowledging that fact before starting the hike. Prior to the hike please advise the leader of any medical condition or physical liability that could affect you during the hike.

FOOTWEAR AND CLOTHING - Wear clothing suited to the weather and carry extra garments for unexpected weather conditions. Dress in thin layers so that you can adjust the number of layers as required to maintain comfort. In winter carry a wool cap and wool or polypropylene gloves or mitts and a windproof shell. Be prepared for rain. Bring a rain jacket and rain pants, preferably of the type that permits venting body moisture. Wear comfortable, sturdy boots. Do not wear cotton garments in winter.

DRINK AND FOOD - Adequate hydration is important year round. Drink frequently during the hike. Carry food to enjoy during the midday lunch stop.

DOG-FRIENDLY HIKES - All hikers with dogs must abide by park leash regulations.

HIKE RATINGS - represent the Pace, Distance and Terrain covered during the hike. A hike’s rating is determined by the hike leader.

Pace:  
A - Fast - 2.5 mph or faster  
B - Moderate - about 2 mph  
C - Easy - 1.5 mph or less

Distance:  
is given in miles as noted

Terrain:  
A - Strenuous, long ups and downs, some rock scrambling possible.  
B - Moderate ups and downs as occur typically in Harriman.  
C - Generally flat with little elevation change.

MAPS - The TC number indicates a NY-NJ Trail Conference map for the area of the hike. For example: TC-118 refers to the Southern Harriman Park map.

ABBREVIATIONS - NCA-No Calls After . . . , Pref.- Leader’s contact preference.

EXPENSE SHARING - When car-pooling, passengers are expected to offer to driver funds sufficient to cover the cost of fuel, tolls and parking fees. A $3.00 minimum per person is recommended. Most hike trailhead meeting locations can be found on NY-NJ Trail Conference maps.

HIKE CANCELLATION POLICY - Sometimes an illness, injury or other unforeseen problem will make it impossible for a hike leader to lead his/her hike as announced in the schedule. When this happens the leader should first try to find a substitute leader so the hike can proceed as scheduled. The hike schedule chair person or any club officer can assist if necessary. If no substitute leader can be found then the leader or a substitute should appear at the hike meeting place to inform hikers of the situation. If a qualified leader volunteers, he/she should be given the sign-in sheet and the hike can proceed as scheduled. The only time a hike may be canceled is if the leader has requested pre-registration of all participants. In that case the leader must inform all who registered of the change by phone or e-mail.

Why the NY-NJTC?

newsletter for members every two months. It lists new hiking areas, new trails, washed out bridges, relocated trails, volunteer opportunities, and invitations to join hikes sponsored by other hiking clubs. First Central NJ Trail Map Published

The NY-NJ Trail Conference is publishing this Spring a Jersey Highlands Trails - Central map set (no. 125) covering, for the first time, hiking trails in north central New Jersey between Wawayanda State Park in the east and the Kittatinny's in the west. The new areas in Passaic, Morris, Sussex and Warren Counties include Allamuchy SP, Apshawa Preserve, Farny SP, High Mountain Park Preserve, Mahlon Dickerson Reservation and Pyramid Mountain Natural Historic Area. NJR members should take advantage of this new resource to visit prime hiking territories that are currently under-utilized by both our hikers and hike leaders. Please check the nynjtc.org website for hike map availability.
Much Ado About Everything (To Do)

I know we are ALL looking forward to the beginning of spring, and with it will arrive numerous flowers and an abundance of club activities, Louise Parnell is planning a variety of fun things to do for our club. Iona Island is a fascinating place to visit and on Wednesday, April 6th at 10 AM Doc Bayne will lead us on a private tour of the Island. Register with Louise before April 3rd as space is limited. She will guide us on a walk over the Bear Mountain Bridge on Wednesday, April 20th at 10 AM. On Sunday, May 22nd, at 12 noon she has planned a two-hour cruise on the Hudson River. Call Louise early to sign up for these events, 845-290-5287.

Chris Tausch is giving a map and compass course entitled “Hiking 101” for those of us who want to be better navigators in the woods. It is on Thursday, April 28th from 7 to 9 PM. The location will be determined; call Chris to register, 201-819-3034. The cost is $10 for members and $20 for non-members. Course fees include a new compass and a book of hiking tips. All proceeds will go to the club.

Our next Chapter meeting will be on Friday, April 29th, 7:30 PM at the Holy Cross Lutheran Church, 125 Glasgow Terrace, Mahwah, NJ. Ivan Kossak, bird expert, will present a power-point program highlighting how to identify birds by sound and sight. He will emphasize colors, shapes, sizes, and habitats of local birds. We will be amazed by the numbers of birds in our own neighborhood. Please bring friends and family to this interesting evening. Of course, refreshments and conversation will be a part of the meeting.

Following Ivan’s program, on Saturday, April 30th, he will lead us on a bird walk leaving at 8 AM from Garret Mountain Reservation, West Paterson, NJ. See the hike schedule for details.

Rockland Winter Tragedy continued from page 1

On Saturday, May 21st (rain date May 28th) Paul Tappenden, a well-known Rockland County naturalist and wild edibles educator, will be leading a walk through parts of Kennedy Dells County Park, where we will be identifying native wild plants and discussing their uses, with a concentration on edible and medicinal species. Paul will suggest ways to harvest and prepare wild foods and effective herbal remedies. Expect to sample some surprisingly delicious trailside treats, and to make some fascinating discoveries. The park is at the north end of main street in New City, just beyond Phillips Hill Rd. See the map for where to park. We should arrange to meet in the parking lot by 1:30 PM for a 2 PM start. The cost is $5 pp. Please register with Suzan Gordon before May 21st. 201-871-3531 or browning.27@verizon.net.

I hope to see you on some, or all, of these enjoyable events.

Bistate Park News

by Chris Connolly

At press time, it appears that neither the New Jersey nor New York state park or environmental conservation budgets will suffer further cutbacks in the new fiscal year beginning July 1. While the New York situation remains somewhat in flux, Governor Christie’s February 15 budget spares the NJ parks’ operating funds and increases environmental protection funding. Meanwhile, Governor Cuomo has nominated Joe Martens, President of the Open Space Institute (OSI), as Commissioner of the Department of Environmental Conservation. NJR applauds this appointment. Under Martens’ leadership, OSI preserved 86,000 acres in New York, including, most notably for NJR members, the Awosting Reserve that is now part of Minnewaska State Park.

This good news should not obscure what previous bad budget years have wrought. New Jersey park operating budgets remain 35% below what is necessary for regular maintenance and upkeep. The New York State Council of Parks’ 2010 report highlights the deteriorating situation for NYS parks and sets five priorities for this year:

1. Keep Parks Open - The parks’ operating funding is inadequate. In the past three years the parks budget has been slashed by 35%, with the loss of 1,500 permanent and seasonal jobs.

2. Stop Park Facility Deterioration - The capital costs of updating park facilities is $1.1 billion. New York had previously agreed to fund these costs through an annual $100 million capital budget, but this budget was also slashed last year to $30 million. The $100 million commitment needs to be reinstated.

3. Provide Dedicated Park Funding Mechanism - The record 57 million people who visited the NYS park system last year generated $1.9 billion in economic activity for the state. This economic engine merits more secure funding to maintain the parks that keep it going.

4. Increase Public-Private Partnerships - Sixteen “Friends” groups consisting of private citizens and organizations have formed since 2007 to advocate the interests of specific parks. Last year, for example, the Friends of the Minnewaska and Fahnestock parks lobbied effectively to prevent their parks’ closures.

5. Increase Private Fundraising - Since 2009, $5.6 million has been raised.

NJR members should check the nynjtc.org website to stay apprised of the latest budget developments and learn how they can advocate for the parks.
